

LX segment designations for HSN

- LX segment is used to separate claims by HSN Type by Fiscal Year and Patient Type.
- There can only be one instance of any one particular LX in a given 835 - so only one LX that equals LX*0108091 for submission
- Claims that span Fiscal Years are processed by their Discharge Date - so an HSN Prime Inpatient with Discharge Date = 10/4/06 claim will fall within the LX*10711
- The Through Date from the Statement Dates should be used since there are Outpatient Claims that can span up to 48 hours, thus a FY Span is possible for Outpatient.

LX Legend:

1st digit = HSN Type
2nd+3rd digit = Ending Fiscal Year (ex: 09 = 09/30/2009)
4th+5th digits = Hospital Facility Code (11 or 13)
